Academic Project Undertaken

- Title of the Project : Credit Card Processing
- Version : Version 5.00
- Software : Microsoft.jet.oledb.4.0
- Data Source : CMS
- Team Size : Three members

About The Project

- Computerization of CREDIT CARD MANAGEMENT SYSTEM does effectively reduce the manual work involved in generating credit card to a citizen with unique credit card number. It saves time and gives easy access for already stored information. It enables the administrator in providing faster service to the applicants. The system is completely menu driven and extremely user friendly since it is developed in an efficient front end tool Visual Basic. Appropriate error messages are also provided too guide the user in a proper and user friendly manner. The system has effective management of records which hold all the information of a particular citizen.

Relevant Skills

- Excellent Mathematical and Communication skills
- Good Internetworking skills
- Good in maintaining inter personal relations

Declaration

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above mentioned particulars.

Place : CBD Belapur
