PROFILE

A creative minded individual with functional experience in UI/ UX Technologies that include HTML 5, CSS3, jQuery, Bootstrap and Adobe Creative Suite

An eye for clean and artful design

Create wireframes, storyboards, interactive mockups, user flows, sketches, written specifications user personas, and user experience journeys etc to effectively communicate interaction and design ideas

I have excellent time management and organizational skills with the ability to meet tight deadlines

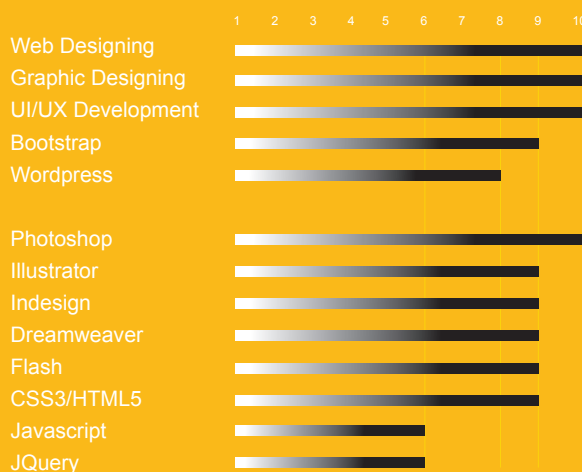

Great design sense and mastery of typography, color, and layout, especially how all three work in a responsive context

Flexibility when working through design revisions, from initial brainstorming to execution and refinement

Ability to quickly experiment and iterate on interface and interaction concept

I also possess outstanding verbal and writing skills with the ability to communicate with different departments, executives and clients efficiently
