### Projects Undertaken:

- **GETWATCH(Website):**

The Wrist watch website is created with the help of two peoples, the main purpose of making this website is to make the available various kind of the wrist watches to the customers.

- **Intrusion Detection System(IDS):**

Behavior based intrusion detection techniques assume that an intrusion can be detected by observing a deviation from normal or expected behavior of the system or users. The model of normal behavior is extracted from reference information collected by various means. the IDS later compare this model with the current activity .when a deviation is observed, an alarm is generated. In other words, anything that does not correspond to a previously learn behavior is considered intrusive. We take the bank application on that we used intrusion detection system and try to make the transactions secured.
