**B.E. Projects**

Institute	: Truba Institute of Engineering and Information Technology, Bhopal
Project Name	: Defect Tracking System
Duration	: 3 months
Team Size	: 4 members
Platform	: IDE Visual Studio.NET 3.5
Description	: Defect Tracking System is the system which enables to detect the Defects. It not merely detects the Defects but provides the complete information regarding Defects detected. Using this no Defect will be unfixed in the developed application. In the testing phase the tester will identify the Defects. Whenever the tester encounter 'n' number of Defects he adds the Defect id and information in the database. The tester reports to both project manager and developer. The Defect details in the database table are accessible to both project manager and developer.
Role	: 1. Work as a Team Leader 2. Performed Integration Testing, Functional Testing, System Testing. 3. I am responsible for some part of database and documentation work.
Operating System	: Windows 7

### ACADEMIC PROFILE
