- Basic of C language.
- Basic of C++ language.

Web designing languages/framework:

- Html 5
- CSS
- Bootstrap
- JavaScript

BE project:

AUTOMATIC SPEED CONTROL IN RESTRICTED AREA

This project divided in two part: transmitter & receiver section .In this project we used rf transceiver module for transmission of data. The transmitter module is fixed at predefine lane/areas. Speed limit is predefine in microcontroller. This information is transmitted as wireless signal through RF module.

The receiver module is fixed in the vehicles. When it receive wireless signal form transmitter module then signal goes to MCU & indicate. If driver still doesn't reduce speed of vehicles, the microcontroller itself control the speed of vehicles.

Personal Information:

Name : Kalpesh Bharat Shirodkar

Date of birth : 13th December 1992

Hobbies : Marathi, English, Hindi.

Language known : Marathi, English, Hindi.

Permanent Address: At-post Sarmbal tal-kudal,
Dist-sindhudurg pincode-416520
