PROFILE

With 5+ years experience working as a qualified UX + UI Designer, I have worked with a variety of companies locally and internationally, designing and producing quality digital design solutions. My main strength comes in offering unique solutions for each client.

I have proven competency in developing projects from inception to final delivery, ensuring that all work is delivered within the deadline without compromising the quality. I am able to work as part of a team with, Product Managers, Frontend Developers, Backend Developers, Content Writers, Photographers, Designers and Business Developers.
