Career Objective :

To constantly learn, enhance skills, capabilities and always reach for higher level of competence, apply my knowledge and skills to the best of my ability and in the interest of the organization.

Qualification :

Course	Institution	Board/University	Year	Percentage
B.E (Mechanical)	Bapuji institute of engineering and technology	Visvesvaraya Technological University	2016	64.54
PUC	Sri vyshnavi chethana pu science college	PU education board	2012	80
10 th	K.V.S English medium high school	Karnataka state education board	2010	68.48

Technical skill :

- Java,J2EE
- Manual testing
- Basic knowledge of HTML5,css

Academic project :

Title: “MODELLING AND ANALYSIS OF CAMSHAFT”

Description; The cam shaft and its associated parts control the opening and closing of the two valves, The camshaft is driven by the crankshaft through timing gears cams are made as integral parts of the camshaft and are designed in such a way to open and close the valves at the correct timing and to keep them open for the necessary duration.

In this project work, the analysis is done by finite element analysis method. 3D-model of the multi cylinder engine camshaft is created using modeling software **CREO 2.0**. The model created in **CREO 2.0** is meshed in the meshing software **HYPERMESH**. Then the meshed model is analyzed for static loading condition in analysis software **ANSYS**. The **ANSYS** stress values are compared with the theoretical stress values which are obtained by numerical calculation.

Extra-Curricular Activities:

- “BEST STUDENT” Awarded for the year 2009-2010 from K.V.S English medium high school.
- Awarded First prize in Quiz Competition organized by SS Institute of perfect English ,davanagere.
- Industrial visit to“Varahi Hydro-Electric power plant „during the academic year 2015

Strengths:

- Dedicated and Hard worker
- Adaptability to changing environment
- Positive attitude
