Academic Projects

Project Name :Online Training and Placement System
Environment :Java
Team Size :3 Members
Duration :8 Months (Sept 2015 – April 2016)
Description :This project is developed using java front end and My SQL as backend. This project is developed based on general concept; it is having approximately 10+ forms and four or more Reports. TPO Portal is to reduce the work load of the TPO officer and created a website so that it becomes computerized and easy to for students to access. It is a comprehensive student information management system developed from the ground up to fulfill the needs of independent Colleges as they guide their students to success. The Education Edge integrated information management system connects daily operations in the College environment. This reduces data error and ensures that information is always up-to-date throughout the College.
