PROJECT DETAILS

- **BSc. I. T. Project:**

Project Title: "Housing Society Management System".

Front-End: C# .NET **Back-End:** MS-Access

Brief Overview of Project:

This Software enables the administrator of Society, to maintain the records of the Members. This system acts as a standard interface between the members and Society Administration.

- **MSc. I. T. Project:**

Project Title: "Gender Identification using Fingerprints Images".

Software used: MATLAB.

Brief Overview of Project:

This software is useful for identification of male or female fingerprints. So, it can be used in forensic investigation to reduce number of suspects.

Automatic classification of fingerprint is done by applying Image Processing Techniques and extracting features that can be given to Artificial Neural Network (ANN) algorithm/classifier for classification.
