A/p-Jamkhed (Milindnagar),
Tal-Jamkhed, Dist-Ahmednagar,
Maharashtra, 413201.

Objective:

To secure a challenging position where I can use my skills, knowledge as software professional.

Educational Qualification:

<u>Course name</u>	<u>College name</u>	<u>University</u>	<u>Year of passing</u>	<u>Percentage</u>
CDAC	CDAC Hyderabad	-	2015-16	61.50
BE	P.R.E.C. Loni .	Pune	2014-15	63.40
HSC	SNVJ school & college Jamkhed .	Pune	2009-10	67.33
SSC	SNVJ school & college Jamkhed .	Pune	2008-09	77.07

Technical Competencies:

Programming Languages : Java, C++ and C

Web Technologies : Servlet, JSP, PHP, ASP, HTML

Database : MySQL and SQL server

Experience: (8 Months)

Company Name: Hella India Automotive Pvt Ltd Pune.

Designation: Trainee

Projects:

1.Intranet:

1.1:PMS (Performance Appraisal Cycle):

- **Technology:** PHP and PHP MySQL.

1.2:Rewards And Recognition (Pat on the back):

- **Technology:** PHP and PHP MySQL.

1.3:Training Portal:

- **Technology:** ASP.net MVC and SQL server.

1.4:Training Feedback System:

- **Technology:** PHP and PHP MySQL.

1.5:Exit Employee Feedback System:

- **Technology:** PHP and PHP MySQL.

1.6:Employee Feedback Application:

- **Technology:** ASP.net MVC and SQL server.

Project details:(CDAC Project)

Title: Heuristic Rule Based Threat Monitoring System.

Tools: Linux OS, Linux system programming.

Description:

As Linux is multi user OS so it can used by multi user. The no of software/application takes the reference of files like library, binary or configuration files etcetera to complete its execution. Suppose these files get changed there may be problem in execution of that software/application. Also there may be Virus attack. To overcome this problem we can apply certain heuristic rules on file to protect it from unauthorized user .Also we can allow or disallow certain operation like read/write on file to protect it.

Project details: (Final year)

Title: Android Suburban Railway ticketing with GPS as a ticket checker.

Tools: Android SDK, Android STUDIO/ Eclipse, SQLite, Cloud database, ASR, QR code, GPS.

Description:

This project deals with the development and implementation of a smart-phone application to buy the urban ticket which is simple and easy to use, as well as to avoid the theft problems in existing system. Our ticket can be bought with the help of a smart phone application, where our urban railway tickets can be carried in our phone in the form of a Quick Response code. The ticketing information of the user is stored in the database. It uses the smart phones facility to validate the ticket and delete it automatically after a specific interval of time, once the user has reached the destination. The ticket checker can scan the user's ticket with the help of a scanner in the checker application.

Project details: (Third year)

Title: Automatic Teller Machine.

Tools: Windows 7, Visual basic studio (VB), MS-access.

Description: Millions of times per day around the globe people are instantly withdrawing money at automatic teller machines (ATMs).So we are tried to design the forms which gives the real effect, as to handle the ATM transaction like withdraw, transfer, balance enquiry etc.

Extracurricular activities: Participated in the many national level events.

Achievements: Got 16th runner up in Taluka school level drawing competition.

Personal details:

Name: Ghayatadak Jaibhimrao Eknath.

Father name: Ghayatadak Eknath Rangnath.

Date of birth: 14/04/1992.

Gender: Male.

Marital Status: Single.

Nationality: Indian.

Permanent address: A/p- Jamkhed (Milindnagar), Tal - Jamkhed, Dist- Ahmednagar, Maharashtra, 413201.

Contact number: 8600855511/9527808952/7097714971.

Hobbies:

Drawing, Cooking, Eating.

Language:

English, Hindi, Marathi.

Date:

Place:

(Ghayatadak J.E.)
