MAJOR PROJECT

SOLAR POWER PLANT:

Topic: To convert Electricity to solar power energy by using solar panels.

Description:

A solar power plant is based on the conversion of sunlight into electricity, either directly using photo voltaic (PV), or indirectly using concentrated solar power (CSP). Concentrated solar power system use lenses, mirrors, and tracking systems to focus a large area of sunlight into small beam. solar electric system use solar cells to convert the sun's radiant energy into electricity. this is done using a principle known as photovoltaic effect. .. the other components of the system convert the generated DC electricity into AC electricity so it can be used by the electrical appliances in your home.
