## Academic Project

Name of the project:-Automated Beverage Plant

- Team Size:-9
- Details:-
- Software used:- RS Logix, RS Linx
- Designed a PLC based fully automated ratio controlled plant with processes as mixing & filling, which can be used in a beverage industry. It consists of 2 tanks in which process liquid is filled and with the use of a solenoid valve, controlled its flow and mixed it in 3<sup>rd</sup> tank and stirred it and then filled it on a can moving on a conveyer. We joined 2 conveyers without any rolling balls at 90 degrees. The final product is lifted from second conveyer and packed manually.
