OBJECTIVE

To work for the organization which provides me the opportunity to improve my skills and knowledge along with the growth of organization.

SUMMARY

Manual Testing

- Write/Review/Execute Test cases
- Performing Smoke testing, functional testing, integration testing, system testing etc.
- Excellent in performing exploratory testing by preparing exploratory charter.
- Preparing test summary/STCM report.
- Writing test plan.
- Understanding business requirement document and identifying scenarios.
- Performing globalization testing, compatibility testing, Adhoc testing etc.
- Preparing defect report and raising then ticket in defect tracking tool.
- Performing test case review process.
- Identifying test data using test case design technique.
- Preparing traceability matrix to achieve minimum coverage in the project.

Automation Testing Using Selenium WebDriver

- Excellent in developing frame work.
- In depth knowledge on core java.
- Extensively worked with ANT and configuring it using build.xml.
- Extensively worked with Junit
- Developing properties files and reading the content from properties files.
- Reading data from excel using POI API.
- Generating html based reports.
- Analyzing html reports.
- Developing bat files for the project.

ACADMIC DETAILS

- Completed **BE in Information Technology** from Savitribai Phule Pune University with very good academics.
Year of Passing: 2017
- Completed **Diploma in Information Technology** from Yadavrao Tasgaonkar Polytechnic, Karjat with good academics 2014.
Year of Passing: 2014
- SSC pass out from CBSE Board
Year of Passing: 2011

SOFTWARE SKILLS

Operating System: Windows 7,8,10, LINUX

Testing Methodology: Selenium

Programming: Core Java

Databases: MySQL

PROJECT DETAILS

Project Name: proCRM

Technology : JAVA, Selenium, Junit, ANT, POI API.

Team Size : 4

Process Type: Agile scrum process

Duration: 4 months

Description : It is a web based application designed and developed to perform marketing in an efficient manner. It helps to manage and maintain leads, billing of the customer, performing email campaigns and measuring its efficiency, generating reports to analyze sales forecast, maintaining inventory and purchase entry details. It is a complete CMS designed to be modified as per the customers need. In simple words, it is one stop shop to help customer to do his marketing and sales in the efficient manner.

Roles and Responsibilities:

- Write/review/execute test cases
- Performing functional testing, integration testing, system testing.
- Reporting defect using defect tracking tool
- Developing hybrid frame work using selenium 2
- Integrating frame work with ANT to generate html based reports
- Integrating Junit for executing the test in selenium
- Developed properties file to store xpath's of the object
- Reading data from excel files by using POI API
- Developing bat files for executing the test

SKILL SET

Manual Testing:

- Knowledge on Software Development Life Cycle.
- Knowledge on Levels of Testing.
- Knowledge on Types of Testing.
- Knowledge on Functional and Non Functional Testing.
- knowledge on Software Test Life Cycle
- Knowledge on Writing Test Documents.
- Knowledge on Review and Executing Test Documents.

SQL:

- Knowledge on Database Management Systems
- Good knowledge in writing SQL queries
- Practiced extensively on SQL Server Express Edition Database
- Knowledge on Defect Tracking Tool.

Test Automation using Selenium:

- Knowledge on Creating Selenium Test Cases using Element Locators and WebDriver methods.
- Knowledge on Java programming to enhance Test Cases
- Knowledge on Testing Framework

DECLARATION

I here-by declare that, all the information provided by me is true to my best knowledge.
