Project:**Title: Take Away Popelnice**

- Current garbage collecting system are normally a container of plastic with an opening through which user can throw the garbage in it. Dustbins used in hotels are kept far from activity places user always need to find specially in places like hotels.
- But if dustbin itself has mobility then it will be able to reach to user rather user finding it. This facility will allow places like hotels to improve their service class.

Title: Modern Library

- Nowadays the library is like the things can be done manually. The librarian has to keep the record of the books which are issued, returned or reissued. This work become tedious.
- By using modern library the number of workload decreases.
