 - Knowledge of MVC design pattern.
-

Project: **Car Parking and Payment Using NFC technology**

The basic idea of this project is to provide ease for car parking and payment. For authentication and owner car identification, the parking system uses Near Field Communication (NFC) technology. In this system,NFC establishes radio communication between mobile phones and RFID card.The car owner has an UID which is scanned by reader and the respective amount is deducted from the user's account.

Technologies Used: Eclipse,NFC card,NFC based mobile phone.
