WORK ON PROJECTS STATED UNDER

Project Title: Add to Cart

Description:

In this project, we will be building a small e-Commerce site in which a user can view the products available online and can add to the cart he wishes to buy and even remove it from the cart after looking the bill.

On the other side admin, can add new products, by filling a simple form.

Two parts of this project:

1. Adding products by admin side.
2. Viewing the products and adding to the cart by user side.

Technology Used: PHP, Html, MySQL

Team Size:2

Duration: 6hrs

Project Title: Library Management

Description:

In this project, we have built a small library management system in which users can request books and return books only after the request was fulfilled by the admin.

Technology Used: PHP, Html, MySQL

Team Size: 2

Duration: 6hrs

EXTRA – CURRICULAR ACTIVITIES

- ❖ Attended Dale Carnegie Training Capsule 5 Performance & Success Define

WORKSHOP ATTENDED

- ❖ Attended workshop on **Network Security-Attacks and Mitigation** -By prof. Mahendra Mahera of Fr. Conceicao Rodrigues College of Engineering

PERSONAL DETAILS

- ❖ **Date of Birth** : - 10th Janurary 1994
- ❖ **Language Known** : - English, Hindi, Gujrati, Marwari, Marathi
- ❖ **Marital Status** : - Single

Place : Mumbai
