Project Details

Project Name : Driver behavior profiling using smart phone
Technology : Embedded system
Duration : 3 Months
Role : Team Lead

DESCRIPTION:

The main aim of this project is to implement the driver's behavior system using GSM and GPS. The system can focus on driver behavior, the system consists of micro controller LCD, GSM, GPS, alcohol sensor, MEMS sensor, accidental sensor. Here the microcontroller can continuously be monitoring the data from sensors. If alcohol sensor detects alcohol the microcontroller will stop the vehicle and send the SMS to the authorized person.

If the driver is sleeping mode then the microcontroller gives the voice playback in vehicle. If accident may occur then the microcontroller sends the location to the authorized person.

Key Strengths

- Punctuality
- Hard working
- Adaptability in any kind of Environment
