- ▯ Defect Reporting/Tracking using **Redmine, Clear Quest and BugZilla tool**.
- ▯ Currently leading the BMS project related activities.
- ▯ Automated Scripts using rapido framework in **RFT** tool.
- ▯ Experience in installation of 3-tier architecture application.

**Skill Set:**

- Experience in Testing of Web Services through XML.
- Handled the Testing of Projects in all phases of Software Testing Life Cycle.
- Identification and analysis of complete Functional and Non-functional Requirements for Quality Project delivery.
- Ability to design optimum Test Cases which facilitates maximum Test Coverage.
- Ensure minimum possible Defect Leakage by effective execution of Comprehensive Tests in different environments.
- Handled Projects Testing having Rapid Product Release Cycles.
- Demonstrated problem solving and decision making abilities.
- Basic SQL queries.
- Basic Linux commands.
- Training the new members in the team and getting them productive quickly.

**Work Experience:**

- Working as **Senior Software Engineer** at **Rolta India Pvt Ltd**, Mumbai  
Duration: JAN 2015 to till date.
- Worked as **Software Tester** at **Verchaska infotech Pvt Ltd**, Navi Mumbai.  
Duration: Sep 2012 to Dec 2014.

**#1.Organization Details:**

**Organization : Rolta India Pvt Ltd,Andheri,Mumbai.**

Duration : JAN 2015 to till date.

**Project Details:**

**# 1.Project : Rolta BMS (Battlefield Management Systems)**

Description : BMS Provides Real-time Accurate Information for Effective Decision Making.

- ❖ The BMS consists of a wireless network that links digital devices carried by combat soldiers, interlinking them, their commanders and a range of battlefield sensors. This provides a common battle picture to each individual. With the help of BMS, Commanders of any Arm or Service at various hierarchical levels can benefit from real time accurate information, enabling them to make the right decisions at the right time.

**# 2.Project : Aakrosh**

Description : To cater the need of a comprehensive strategy to the safety, survival and vitality of the nation, Rolta provides Aakrosh, a counter terrorism operation tool.

- ❖ This application helps in efficiently training and familiarizing battlefield real time situations and conditions to the Unit and sub unit commanders using the constructive simulation. The simulated wargame is played between the blue and red players representing Indian army as Blue players and terrorist as red players. In the game, there is deployment and auto engagement of the players.
- ❖ Thus, this tool would enhance the indian government capabilities in decreasing the huge expenditure on the real-time training of the army in tough terrains.

**#2.Organization Details:**

**Organization : Verchaska infotech Pvt Ltd,Vashi,Navi Mumbai.**

Duration : Sep 2012 to Dec 2014 (2.4 Years).

**# 1.Project**

Client Name : **dnata Travel Services(Middle East).**

Description : dnata Travel Services is the largest Travel Management Organization in the Middle East, with over 50 years of experience in the industry.
