Technical Skills:

- Basic C, Core Java, SQL, Pl-Sql, servlet, jsp, Assembly Language.

Academic Projects:

- B.E Project: Smart helmet using GSM and GPS technology.
With this project it is possible to avoid bike accidents caused to absence of helmet over bike rider, drink and drive case and accident spot can be identified and also emergency help can be provided to patient immediately.
- B.E (Mini Project): 8 bit digit code for appliances.
It is a system in which we are first setting a secure 8 bit code lock through hidden switches. The authorized use has to enter that 8 bit code for accessing the appliances.
- Diploma Project: Safety guard for the Blind
In order to help the visually impaired people and make their lives easier, we designed a circuit using microcontroller AT89C51. This system detects obstacle within 1 meter in the path and alerts the user.
