OBJECTIVES

- To work in challenging atmosphere which provide ample opportunity for learning, growth and also to develop myself in tune with requirement of work. I am determined to be a part of an organization that believes in healthy corporate practices & strives for excellence.

ACADEMIC BACKGROUND

- High School from Madhya Pradesh Board with 86.2% of marks in 2007.
- Intermediate from Madhya Pradesh Board with 66.6% of marks in 2009
- B.E.(EC) from Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Bhopal with 59.2% of marks in 2013.

COURSES/CERTIFICATION

- **PG-DAC** course from **CDAC**, Pune from Feb, 2016 to Aug, 2016 with 60.5% of marks.

ACADEMIC PROJECTS

Title : **E-Local Business Directory**

Platform : J2EE

Duration : 1 Month

Discription : In todays world information can be retrieved very easily. But as the Internet is freely accesible and updatable most of the information available is not reliable. We in this project are trying to design a website which works as an electronic directory, which gives brief and reliable information about company and its services and contact information as to suggest a solution to this problem.

Title : **MATLAB Controlled Home Appliances**

Platform : MATLAB Programming

Duration : 2 Months

Description : This project was an application to automate and control home appliances rated under 5A. Used MATLAB software. The project dealt with having control on domestic or commercial electrical and electronics appliances remotely by the proper execution of MATLAB Programming and PCB Designing. The project helped in saving electricity and prevent damages on the appliances.

EXTRA-CURRICULAR ACTIVITIES

- I have successfully attended the workshop on **Object Oriented DBMS**.
- I have successfully attended the workshop on Digital Security provided by **Kyrion Digital Securities**.

TECHNICAL SKILLS & SOFTWARE EXPOSURE

- Good command on various Programming languages such as **C/C++ , C# , JAVA etc .**
- Good command over **Oracle Database , PL/SQL.**
- Knowledge of **OOPs Concepts, HTML5, CSS3.**
- Proficient in operating **LINUX.**
- Good exposure in following industry coding guidelines and standards.

KEY SKILLS

- Comprehensive and technical problem solving abilities.
- Analytical thinking capability.
- Strong leadership and communication skills; effective team builder.
- Successful deliverer of profitable growth; hard and smart worker.
- Tactically innovative programming skills; approachable.
