Web Technology: HTML, CSS, J2EE.

DB Technology: JDBC, Oracle 10g, SQL Server 2008.

PROJECT

Project during certification:

Java Project: Company_Mailer_User.

Description: Front-End : Eclipse IDE

Back-End : Oracle 10g

A mailer application for a company that can be used by the employees of the company only. It can be run on intranet. Each user can send mails, receive mails and delete mails after getting logged in!

HTML Project: Template of Quastec Website.

Description: Front-End : HTML/CSS.

Quastec Website by using HTML,CSS.

BE Project : Clustering Techniques For Duplication.

Description: Front-End : Eclipse ID

Back-End :SQL Server 2008.

We have developed A clustering technique for duplicate record detection that operates on the intuitive notion of grouping together records with similar properties and then subdividing the groups using other shared properties until they are all of tractable size. We have implemented this algorithm in the Map Reduce framework so that it may scale to inputs in the billions of records.
