Browsers	: Internet Explorer, Mozilla FireFox, Google Chrome,Safari.

PROJECT HANDLED

Project Title	My Panel Hub
Client	Markelytics Solution India Pvt.Ltd.
Duration	February 2016 till date.
Project Description	This one is the Web application. The application is for carrying out online survey and paid the respective users for carrying out the survey.
Roles & Responsibilities	• Deriving the Test Cases for Automation Testing. • Extensively Performed Automated Testing using Selenium Webdriver. • Extensively performed Manual testing process to ensure the quality of the software. • Deriving the Test Cases for Automation Testing. • Effective writing of User Stories for the Test Case scenarios. • Performed Performance Testing for System performance. • Derived Test Scenarios and Test cases using Functional and Requirements specifications. • Executed Test Cases and reported defects in terms of Major, Minor & Critical. • Executed Test Cases and reported defects. • Involved in Integration Testing, Functional Testing, Regression Testing Manually. • Raising defects in Defect Tracking. • Retesting of the fixed defects.
Technologies	PHP using Laravel framework.
Test Performed	Functional, UI, System, Integration and Regression testing.

Project Title	CRM
Client	Markelytics Solution Ind.pvt.Ltd.
Duration	February 2016 till date.
Project Description	This application is developed PHP And is Used mainly for Launching different types of Project,Generating RFQ And also for Employee regular attendance .

Roles & Responsibilities	- Deriving the Test Cases for Automation Testing. - Extensively Performed Automated Testing using Selenium Webdriver. - Extensively performed Manual testing process to ensure the quality of the software. - Effective writing of User Stories for the Test Case scenarios. - Derived Test Scenarios and Test cases using Functional and Requirements specifications. - Executed Test Cases and reported defects in terms of Major, Minor & Critical. - Executed Test Cases and reported defects. - Involved in Integration Testing, Functional Testing, Regression Testing Manually. - Raising defects in Defect Tracking. - Retesting of the fixed defects.
Technologies	PHP language with PhpMyAdmin DB .
Test Performed	Functional, UI, System, Integration and Regression testing.

Project Title	MPH Android App
Duration	February 2016 till date
Project Description	This application is developed in Android and it consist users login who can able to Log into the application and able to take survey .
Roles & Responsibilities	- Extensively performed Manual testing process to ensure the quality of the application. - Derived Test Scenarios and Test cases using Functional and Requirements specifications. - Executed Test Cases and reported defects in terms of Major, Minor & Critical. - Executed Test Cases and reported defects. - Involved in Functional Testing, Regression Testing Manually. - Raising defects in Defect Tracking. - Retesting of the fixed defects.
Technologies	Android.
Test Performed	Functional, UI, System, Integration and Regression testing.
