Professional Experience:–

I have 2+ years of experience in the field of manual testing and automation testing   (Selenium Web Driver).

Manual Testing

- Write/Review/Execute Test cases.
- Performing Smoke testing, functional testing, integration testing, system testing etc.
- Excellent in performing exploratory testing by preparing exploratory charter
- Preparing test summary/STCM report.
- Writing test plan
- Validating data in the back end database using SQL
- Understanding business requirement document and identifying scenarios.
- Performing globalization testing, compatibility testing, Ad-hoc testing etc.
- Preparing defect report and raising then ticket in defect tracking tool
- Performing test case review process.
- Identifying test data using test case design technique
- Preparing traceability matrix to achieve minimum coverage in the project
- Attending triage calls

Agile process:–

- Attending daily standup meetings
- Attending planning poker activity.
- Good in analyzing burn down chart
- Attending scrum meetings
- Understanding user stories and preparing test cases

Automation Testing Using Selenium Web Driver:–

- Excellent in developing frame work
- In depth knowledge on core java
- Extensively worked with ANT and configuring it using build.xml
- Extensively worked with J-unit
- Developing properties files and reading the content from properties files
- Reading data from excel using POI API
- Generating html based reports
- Identifying objects based on x-Paths, Id, name etc.
- Handling multiple browsers, alert boxes etc.
- Analyzing html reports
- Developing bat files for the project
- Giving code walk through to the new joiners.
- Handling exceptions and performing RCA in the project.

Employment Chronicle:-

Company Name: I-Catalyst
Designation: Software Test Engineer   Experience: 2.1 years

Education Details:–

Completed Msc.I.T from reputed University with very good aggregate.
Year of Passing:-2014

Project Details:–

Project Name : DEMO CRM
Technology   : PHP, AJAX MYSQL, TOMCAT etc.
Architecture Type   : MVC
Team Size   : 6
Process Type   : Agile scrum process
Duration   : 24 months
Description:–
It is a web based application designed and developed to perform marketing in an efficient manner. It helps to manage and maintain leads, billing of the customer, performing email campaigns and measuring its efficiency, generating reports to analyze sales forecast, maintaining inventory and purchase entry details. It is a complete CMS designed to be modified as per the customers need. In simple words, it

is one stop shop to help customer to do his marketing and sales in the efficient manner.

Roles and Responsibilities:–
- Write/review/execute test cases
- Performing functional testing, integration testing, system testing.
- Performing exploratory testing
- Writing test plan
- Reporting defect using defect tracking tool
- Preparing traceability matrix
- Developing hybrid frame work using selenium 2
- Integrating frame work with ANT to generate html based reports
- Developing build.xml to configure ANT
- Integrating J-Unit for executing the test in selenium
- Developed properties file to store X-Paths of the object
- Reading data from excel files by using POI API
- Handling exceptions in an efficient way
- Developing bat files for executing the test
- Matching the execution speed of selenium with the application using implicitly wait statements
- Understanding requirement and then identifying scenarios
- Preparing and updating STCM
- Attending daily standup meetings
- Validating data in the back end data base using SQL
- Giving KT to new joiners.

Certification

- **Manual + Automation testing(selenium), Core JAVA , J2EE, JAVASCRIPT** from Testing Campus
- **Post Graduate Certificate in Banking** from AIIM EduSys Pvt. Ltd

Strengths

- Trustworthy
- Willingness to learn
- Determination

Personal Details

- **Date of birth** :   22nd February 1991
- **Language known**   :   English, Hindi, Marathi, Tulu
- **Marital Status** : Single
