TECHNICAL SKILLS

- ✓ C
- ✓ SQL
- ✓ HTML

KNOWLEDGE BASE

- ✓ Software Engineering.
- ✓ Database Management System (DBMS).

PROJECTS UNDERTAKEN

- ✓ **MAJOR PROJECT:**

  TITLE: Evaluation Junction

  DESCRIPTION: The project deals with mind grooming exercises in terms of aptitude, verbal ability and technical skills. The user can improve performance day by day, by analysing themselves   through test results. The user will be able to practice the recently coming questions in the examinations conducted in various fields such as Campus Recruitment test,   Banking examination etc. In this project, the problem is seen with respect to the people who will go for the respective entrance examination or certain examination held for campus recruitments. The people who are in search of jobs will find it helpful as they will get the idea of cracking the written examinations before interviews. The aptitude is very general with respect to every field and also the verbal part is helpful for people in improving their vocabulary for better communication at professional level platforms.

- ✓ **MINOR PROJECT:**

  TITLE: Revenue Case Management System (RCMS)

  DESCRIPTION: Revenue Case Management System (RCMS) is the system for Keeping Proper Records of the Revenue Court Cases. It is Web Based online Database Management system to maintain RCMS applicant's concerned data. Web based makes this technically sound to ensure perfect computerization. Online, ensures to explore information is always updated as per the expectation of every one. Proper Database is the foundation to

manage the entire system. Revenue Case Management System will help the citizens of the state as they will be able to check the status of their cases right from their homes and will not have to visit the revenue courts to know about the next date of hearing or get a copy of the judgment. The daily case list of land-related cases pending in revenue courts, their dates of hearing will now be available online through the project website.
