Email:subhenduroy031@gmail.com   Mobile No: 9739784231

OBJECTIVE:

Aspiring for a promising and motivating career in the domain of Software Test Engineer where my skills, Knowledge and spirit for teamwork would be an asset to the organization.

.

PROFESSIONAL EXPERIENCE

- ✓ 5 Months of Internship Experience in Software Testing with expertise in Automation & Manual Testing in Q-spiders, Bangalore

.

TECHNICAL SKILLS

Manual Testing:

- ➢ Well acquainted with Software Development Life Cycle and Software Test Life cycle, Bug Life cycle.
- ➢ Knowledge of writing test cases and defect reporting using **HP Quality Center**.
- ➢ Good Knowledge in Functional, Integration, System, Regression and Compatibility Testing.
- ➢ Knowledge on User Acceptance Testing.
- ➢ Working knowledge of smoke testing.
- ➢ Good knowledge on Test Plan, Test Case Design Technique

Java:

- ➢ Good knowledge in Collection Framework
- ➢ Exposure and good knowledge in Exception handling
- ➢ Employed all the Oops Principal in Automation Project
- ➢ Exposure and good knowledge on Poi Library
- ➢ Using Poi Library for the interaction with Excel
- ➢ Accomplishing Abstraction in Automation Project
- ➢ Applying Encapsulation in Automation project
- ➢ Executed Type-Casting in Automation Project

Selenium/Webdriver:

- ➢ Involvement on converting Test cases into Test Script
- ➢ Expertise on handling different type of pop-ups
- ➢ Knowledge on identifying dynamic element
- ➢ Knowledge on recognizing different type of locator
- ➢ Handle all the challenges(Frame handling, window pop-up handling, Drop-down handling)
- ➢ Hands on Experience on all the annotations for TestNG
- ➢ Customize Xml file for Parallel Execution, Group Execution, Batch Execution

- ➢ Good Knowledge regarding Framework
- ➢ Strong knowledge in controlling execution flow of TestNG Methods.
- ➢ Having Experience for taking screenshot upon Test scripts and taking back-up of particular report.
- ➢ Implemented Page Object Model(POM) in Automation project
- ➢ Proficiency in Maven Tool

Sql:
- ➢ Expertise on Sql queries, Sub queries, Correlated Subqueries
- ➢ Exposure in DDL,DCL,DQL,DTL
- ➢ Strong Knowledge in single row function and multi-row function

EDUCATIONAL QUALIFICATION:
- ➢ Master Degree(M.tech) from Heritage Institute of Technology (8.32 c.g.p.a), West Bengal in 2016
- ➢ Bachelor Degree (B.Tech) from JIS College of Engineering (7.54 c.g.pa.), West Bengal in 2014.
- ➢ Higher Secondary Exam(H.S.C) from Sodepur High School (57%) in 2010
- ➢ Secondary Exam(S.S.C) from Sodepur High School(79%) in 2008

PROJECT 1
Title: **HRM Track**
Technology: Java, Selenium, TestNG, Apache poi
Role: Automation Testing Engineer

Description:

HRM Track is software for HR management. The architecture of the application targets startups, SMB, & enterprise organizations. HRM Track's professional & enterprise solutions offers many different modules, such as, personnel information management (PIM), leave & time off management, time & attendance management, recruiting & on-boarding, performance & training, travel & expense tracker, employment compliance, disciplinary tracking, HRM app and other HR management tools.

Role & Responsibilities:
- Involved for which Test case to Automated and which Test case not to Automated
- Implemented and designed Hybrid Framework for performing automation
- Implemented different functionalist of Web Element
- Customizing Xml file for Parallel, Group Execution
- Using TestNG tool for Executing Test script
- Taking Screenshots for failed Test-scripts
- Taking back-up of XML files and save it as Zip files
- Implemented Data driven ,Modular Driven, Page Object Model(POM) Testing

PROJECT 2:

Project Name: Time Tracker
Technology: Java, Selenium, TestNG
Role: Automation Testing Engineer

Description:

This is an online project time tracking software that allows users to track time, register leaves, and add comments in a weekly timesheet. Teams become more productive and businesses run better when users are able to get a clear view where time and money are spent. Whether on the desk or on the go, the software provides estimates, reminders and notifications that help project managers keep schedules on time and costs under control, resulting in better team performance and successful project delivery.

Roles and Responsibilities:

- Working end to end- Designing, implementing, execution
- Developing methods for Repeating test case
- Writing Test script, executing test script, debugging
- Prepare automation script in selenium webdriver
- Implemented different functionalist of Web Element
- Implemented Data driven Testing

.

PROJECT 3:

Project Name: Vital Signs
Technology: Apache, My-SQL, PHP
Role: Manual Testing Engineer
Description:

This is a web application that provides end to end business integration solution to our clients that enable them to offer an uninterrupted continuous Business Vertical integration to assist the business users to maintain, monitor and control everyday business activities. It also empowers our client to maintain an Unbreakable information transfer channel with their customers thereby providing a positive thrust to their businesses.

This application is very user-friendly for the end users and provides various advanced search options to find and track their business continuously. It contains many modules like Third parties, Product/services, Commercial etc.

Roles and Responsibilities:

- Understanding the application thoroughly with help of CRS document.
- Involved in Functionality testing, Integration testing
- Preparing and documenting the test conditions and test cases in QC

With Regards
Subhendu Roy
