PROJECT REPORT

- ❖ Have worked on face detection attendance system using MATLAB for BE project.
  Details: Face detection attendance that were normally available use to detect one face at a time, in our project we designed it to detect faces of everyone standing in a group, this led to less time and energy consumption and also made it more efficient. It was also designed to keep a record attendance and calculate average, when required.
- ❖ Have worked on obstacle detector robot for Diploma project.
  Details: Our aim was to build a system that could detect obstacles and avoid collision. This was particularly helpful in automobile industry, building a system that could give a prior warning for any obstacle found, leading to less number of accidents.
