PERSONAL SUMMARY

A highly organized IT professional who has a proven track record of using good engineering practice to test software for new, innovative and profitable products and solutions. At all times Iensure that both the company's and the client's interests are at the core of any IT project. By possessing a sound knowledge of tools and languages I'm able to ensure enhanced user interaction. I'm proud to possess a long record of achieving the desired outcomes of projects, on-time and always within budget.
A real team player who can comfortably work with Testers to enhance software functionality.

I'm a driven individual who wants to progress and is now looking to take the next step in an already accomplished career by joining a successful company.

PERSONAL SKILLS

- Able to work individually, as part of a co-located team or as part of a distributed global team.
