● Career objective:

To accomplish the task by disciplined work and to apply my knowledge by accepting given challenges for better outcomes of a company.

● Software Testing:

● Manual Testing:	➢ Knowledge of SDLC models. ➢ Good understanding of Functional and Integration testing. ➢ Good understanding of Black Box testing. ➢ Excellent understanding of System and Acceptance testing. ➢ Good knowledge of Smoke and Regression testing. ➢ Excellent understanding of writing test cases. ➢ Knowledge of Accessibility, Usability and Compatibility testing. ➢ Knowledge of STLC and its phases. ➢ Good understanding of Defect life cycle. ➢ Excellent understanding of writing Defect Report. ➢ Test cases and Different test case design techniques.
● SQL:	➢ Excellent Knowledge in writing SQL queries and RDBMS concepts. ➢ Good exposure to order by and group by clause. ➢ Well Knowledge in Special and Logical operators. ➢ Good knowledge in joins. ➢ Well Knowledge in Functions.
● WebSecurity Testing:	➢ Knowledge in session and persistence cookies. ➢ Good understanding of SQL injection. ➢ Knowledge in cross site scripting (XSS). ➢ Understanding of cross site forgery request (CSFR). ➢ Knowledge in cookie testing.
● AGILE:	➢ Good knowledge on product back-logs. ➢ Excellent exposure to product owner, scrum master and team rolls ➢ Excellent knowledge of Sprint and daily scrum meeting. ➢ Understanding of Sprint planning. ➢ Good knowledge on retrospect meeting.
● JAVA & SELENIUM:	➢ Good knowledge of OOP's concept. ➢ Good knowledge of Interface, Inheritance and Abstract Class. ➢ Well knowledge of Constructor. ➢ Good knowledge of Selenium IDE, Web Drivers. ➢ Knowledge of Locaters in Selenium. ➢ Good knowledge of Automation test scripts[Xpath, TestNG]

● **Academic Qualification:**

Examination	School / College	Board / University	Year of passing	Percentage
B.E	Government College of Engineering,Chandrapur	Nagpur University	2016	57.86
HSC	S.P.M.junior college,Wani	Amravati Board	2011	53.17
SSC	R.S.M.H.vidyalaya,Wani	Amravati Board	2009	77.07

● **Project: Open and close door system using plc**
Description:

This project aims at developing an automatic DOOR CONTROL system. As now a day life is so much busy and people has very less time, and also everyone wants maximum output by applying minimum efforts. So this project is developed keeping time as major concern in our mind. When any person will come to enter the home then the door will automatically open and when that person passed away the door will close automatically. The main purpose of this project is to decrease human efforts. For this purpose we use automation with the help of PLC. The main advantage of automation is its ability to make a machine able to work automatically. We will do automation with the help of PLC.

● **Software proficiency:**
- ➢ Languages   : MS-Office, VB Scripting
- ➢ Operating Systems   : Windows7,Windows8,Windows10

● **Personal information:**
- ➢ Name   : Rita Anshi sahu
- ➢ Date Of Birth   : 10-12-1993
- ➢ Address   : Deshmukhwadi,Shivne
- ➢ Nationality   : Indian
- ➢ Languages know   : English, Hindi and Marathi.
- ➢ My hobbies   : Listening to music, singing, cooking.

● **Declaration:**

         I do hereby declare that the information provided above is true to the best of my knowledge and believe.
