CAREER OBJECTIVE:

To secure a challenging position in a company where I can effectively contribute my skills as a Software Professional and also enhance my Technical Skills which drives me towards a challenging career in a growth oriented organization.

KEY STRENGTHS

- ➢ Flexible, adaptable and friendly nature.
- ➢ Efficient & Hard working.

EXPERIENCE SUMMARY

- ➢ Having 3.1 years of experience as an IT professional with extensive experience in Manual Testing and Automation Testing .
- ➢ Good knowledge of SDLC and STLC and Bug Life Cycle.
- ➢ Expertise and experience in performing different kinds of testing like Smoke, Functionality, Integration and Regression on web.
- ➢ Involved in managing defect tracking and Bug Reports using Bug Tracking Tools**.**
- ➢ Expertise and experience in performing different kinds of testing like Smoke, GUI, Functionality, Integration and Regression on web.
- ➢ Experience in Automation Testing using Selenium IDE ,webdriver[Selenium 3.0.1].
- ➢ Expertise in Automation testing of different applications across multiple operating systems.
- ➢ Expertise in writing, maintaining, executing test cases and test Scripts**,** analyzing bugs and Interacting with development team in fixing the errors.
- ➢ Hands-on experience in working in critical projects and delivering the products on time.
- ➢ Basic knowledge of AGILE methodology.
- ➢ Involved in writing SQL queries.
- ➢ Having good knowledge on OOPS concepts .
- ➢ Involved in the Requirement Discussion with on site team.
- ➢ Good Interpersonal skills, commitment, result oriented, hard working with a quest and zeal to learn new technologies.

TECHNICAL COMPETENCIES

<u>Selenium:</u>

- ➢ Expertise in selenium automation using Selenium WebDriver and JAVA.
- ➢ Implemented Automation Frameworks like Method Driven framework and Hybrid Framework.
- ➢ Having Knowledge on Keyword Driven Framework.
- ➢ Expertise in Locaters like xpath, Linktext, css selector.
- ➢ Implemented POM classes from scratch to represent web pages.
- ➢ Developed Data Driven frameworks to retrieve test actions, test data from Excel files.
- ➢ Having knowledge on handling synchronization.
- ➢ Having Good knowledge on Handling multiple elements.
- ➢ Writing and executing Test scripts using WebDriver.
- ➢ Handled Dynamic Objects using Xpath expressions.
- ➢ Knowledge on Jenkins, Maven.

- ➢ Proven ability in handling list of web Element, pop-up and ListBox.
- ➢ Expertise in writing Selenium automation scropts in JAVA.

CORE JAVA:

- ➢ Having good knowledge on OOPS concept.
- ➢ Programming concept used such as inheritance, polymorphism, abstraction, encapsulation and interface.
- ➢ Having good knowledge on Collections and Exception Handling.
- ➢ Good knowledge on Wrapper class, String class, Object class.
- ➢ Effective use of casting such as up-casting and down-casting.

SQL:

- ➢ Good understanding of RDBMS concepts like Constraints, Normalization, Tables etc.
- ➢ Good understanding of SQL concepts like Grouping, Sub queries, Functions etc.
- ➢ Solid understanding of SQL Joins(Inner Joins, Left Join and Right Joins and Full Joins).

TOOLS:

1. **Testlink&Jira:**
- ➢ Expertise in writing test cases in TestLink and reviewing the test cases.
- ➢ Execution of approved test cases in Jira.
2. Good understanding on the Defect Tracking Tool **Bugzilla.**

PROFESSIONAL EXPERIENCE

Nov 2013 – Dec 2016, CreativeBit Services Private Limited, Ranchi, India.
Designation: Software Test Engineer

Project #1	*SMART- Sales Management and Relationship Tracking*
Client	Red and Jerry's
Tool Used	JIRA
Role	Test Engineer
Size	4
Description	The project involved tracking and managing customer's relationship in a better way. It is a web based application. We are using web based application for different domains because with the help of web based we can access partially inbuilt mechanism. It includes several modules like Account, Contact, Vendors, Product etc. With the help account module we can track individual customer account detail, address detail etc. In Contact module we can track decision maker detail such as customer name, owner name. In vendors module consist of shortlisted supplier detail. In Product module we can store resources detail.
Roles and Responsibilities	• Understanding the Requirements and Functional Specifications of the project. • Implemented automation using Selenium WebDriver JAVA. • Responsible for Identifying Test Cases For Automation. • Extensively automated regression and functional test suites. Developed

	Automation test scripts for Regression Testing Using Selenium.
	• Identify Locators in web Pages and writing X-path for dynamic elements.
	• Experience in developing a library files and preparation of test data for automation.
	• Involved in developing Scripts.
	• Involved in Functional Testing, Integration Testing and Regression testing.
	• Actively involved in writing and maintenance of test scripts and their execution using TestNG framework.
	• Converted Test case to scripts using TestNG framework.
	• Conducted compatibility testing on different OS.
	• Logged Defect in JIRA.
	• Verifying and validating the functionalityof the Application manually as well as through Automation.

Project #2	*IPR- Infrastucture and Planning Resources*
Client	Amstrad
Tool Used	Bugzilla
Role	Test Engineer
Size	*3*
Description	The project involved tracking and managing resources. It is a web based application with the help of this application we can plan resources and also we can track resources flow within entire organization and also we can plan for infrastructure with large, medium, small scale industry. With the help of these process we can track detailed about in housing and out housing detail. It includes several modules like Financial, Document etc.
	With the help Financial module we can track investment document such as customer invoice, supplier invoice, bill of material etc. In Document module will act as back-up plan in this application in all module whatever document we are creating will be update automatically in document module.
Roles and Responsibilities	• Experience in identifying Test scenarios.
	• Involved in writing, reviewing of Test Cases and executing them.
	• Prepared the Test status report on weekly basis.
	• Conducted compatibility testing on different OS.
	• Involved in Smoke Testing , Functional Testing, Integration Testing.
	• Writing Test cases in an efficient way by understanding the requirement documents.
	• Involved in Functional, Regression, Integration, System and Compatibility Testing.
	• Involved in SRS preparation, Test case execution Report.
	• Experience in identifying Test scenarios.

EDUCATIONAL QUALIFICATIONS
- Bachelors in Electronics & Instrumentation from SILLIGURI INSTITUTE OF TECHNOLOGY, Siliguri (WBUT, West-Bengal) in 2013 with CGPA 7.21.
- Class 12 (Science Stream with Math) from G&H High School, Ranchi (CBSE BOARD) .

- Class 10 from D.A.V. JawaharVidyaMandir,Ranchi (CBSE BOARD) .
