Paper published:

Successfully published a paper titled "Location Based Profile Switching" in *International Journal for Research & Development in Technology For* volume-7, Issue-4, April-2017.

Final Year Project Details:

Degree:-
Project Title: "LOCATION BASED PROFILE SWITCHING".

It is an android application, by this application we can set the location and when we will reach to that particular area(within 10 to 50 meter.) we will get notification and our smart phone will automatically switch to the silent or vibrate mode as per our settings.

Diploma:-

Project Title: "GSM BASED LAN MONIRTORING".

In this project, we made hardware based application, which can monitor your computer, Cyber or LAN when you are not present at the station. Also it provides security from unwanted access to your system.

Other Project Details:

Project Title: "Student Registration System".

In this small project, I have used java as front-end and Sql as back-end. It is a simple windows application which helps Classes to keep students record in organized manner.

Project Title: "Hospital Management System".

This project is done in C language, it is small project which has been given by our teacher as a completion of C language. In this we have given Two login, one for register user and one for other user. With options like appointment, payment, marketing, about us etc.

Extra-curricular:

Participated in "CODE TADKA 2016" in college level competition.

Participated and won consolation prize in the event of "TECHNICAL POSTER PRESENTATION 2017" held by Computer Society of India Student Chapter.
