S.S.C.(10th)	Sarvodaya Hindi High School. Mumbai University	Mar 2010	83%

PROJECTS

➢ *Project-1*

   Project Title: - ONLINE SHOPPING CART.
   Web Components: - Java, Servlet, JSP(MVC), HTML.
   Database: - Oracle 11g..

   Description:- Online Shopping Cart is a web application enabling web clients to shop online.Catalogue is shown to the client of the items which are available.The details of mainted in database.Client can purchase items,which in turn are put in his cart,which is stored in his session.Not only can he purchase,he can remove items from his cart also he can update the quantity.MVC design pattern is used thus separating business logic from presentation.

➢ *Project 2:*

   Project Title:- DATA TRANSFER FROM ONE PENDRIVE TO OTHER USING
                         RSPBERRY PI PROCESSOR.
   Language Used:- PYTHON.

   Description: - In this project we used a Raspberry pi B+ model.In this model 4 port was given.We used a Python language to operation of the processor.When you connect 2 pendrive in any port then you can transfer data,files from one pendrive to another pendrive. It is a portable device and we can use small battery and power bank for charging the device. It is very simple and easy to use and you can carry it anywhere.
