CAREER OBJECTIVE

A dynamic, innovative and responsible individual looking for the role of a Software Tester(Automation/Manual). Seeking to work in dynamically changing IT industry wherein my technical knowledge can be utilized appropriately with exposure to new areas to enable me to make useful contributions for the benefit of the company.
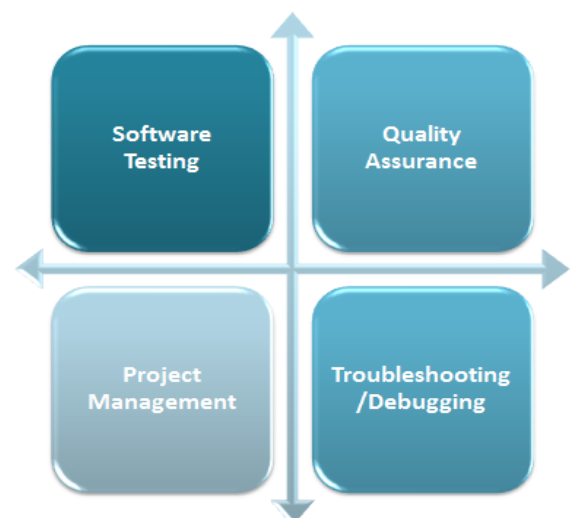

TECHNICAL PROFICIENCIES:

- ➢ **Professional Summary**
  - ▪ Quick learner, Ready to adapt to new technologies.
  - ▪ Have good communication and Aptitude skills.
  - ▪ Have good experience in Product based companies and Service based companies.
  - ▪ Have extensive hands-on experience in Core Java and web application development.
  - ▪ Have experience on Java and MySQL.
  - ▪ Technology-independent and flexible.
  - ▪ Highly committed and dedicated in approach.
  - ▪ High self-belief, confidence and ability to handle different learning curves.
  - ▪ Worked in automation testing demo project in CMS IT services using **selenium** and **Agile** methodology(Scrum).

- ➢ **Network Services :**
  - ▪ IP addressing and subnetting, Routing concepts
  - ▪ Sound knowledge of routing protocols - RIP V1/V2, OSPF, IGRP & EIGRP
  - ▪ Switches: Basic Configuration & VLAN setup on Cisco 1900, 2950, 2960 Switches.
  - ▪ Router: Basic Configuration & monitoring of Cisco 2500, 2600, 1800

➢ **Manual Testing**
- Understanding Software Requirement Specification and identifying the required Test Scenarios.
- Well versed with **SDLC, STLC** and **Defect Life Cycle**.
- Professional Software Experience in which includes Effective identify Test Scenarios, Test Case Designing and Test Case Preparing.
- Analyzed Business Requirement Specifications and System Requirement Specifications and created Test plan along with understanding of Use Case document.
- Extensive exposure in Black Box Software Test Design Techniques like **Boundary Value Analysis** and **Equivalence Class Partitioning**.
- Experience in writing, executing Test Scenarios, Test Cases to test the application functionality against the requirements manually and automating using Selenium(Selenium IDE and Selenium Webdriver 3.0).
- Experience in testing the GUI, Usability, Functionality, Compatibility, Database, Retesting, and Regression testing of web applications.
- Involvement in Requirement Traceability matrices (RTM) Preparation.
- Used Test Management Tools like- Quality Center, Jira for Defect Management and sprint planning.

➢ **Functional Test Automation using Selenium**

- Good Knowledge on Selenium automation Tool which includes –Selenium IDE, Web Driver 3.0 and TestNG Framework.
- Involved in Automation Environment setup using Eclipse, Java, Selenium WebDriver jars and TestNG.
- Created Test cases Using Element locators and Selenium Webdriver methods.
- Conducted Data driven testing, cross browser testing and parallel test execution using Selenium Grid.
- Good Knowledge on Core Java programming.
- Good Knowledge on Modular, Data-Driven and Keyword Frameworks and basic idea on POM framework
- Exposure on Maven, ANT and Jenkins.

➢ **Skills Profile**

Testing Tools	:	Selenium IDE 2.5,Selenium Webdriver 3.4, TestNG
Test Management Tool	:	Jira ,Quality Center
Exposure on Tools	:	Ant, Maven and Jenkins

Programming Language	:	C and Java SE 8
Operating System	:	Windows XP,7,8,10
Web Technologies	**:**	HTML5,CSS, JavaScript, JQuery 3.1.1
Java Technologies	:	AWT Component, JSwing
Scripting languages	:	C,C++,Java SE 8
Databases	:	MySQL Server 5.5
IDE Tools	:	Netbeans 8.2.0, Eclipse Luna
Additional skills	:	MS Word-2010, MS Excel, Open office

➢ TRAINING PROJECTS :

Project 1#

Title	:	Java Application World
Application Tool	:	JSwing
IDE Tool	:	Netbeans 8.2.0
Language	:	Core Java
Operating System	:	Windows 8

Description :

- A Java Application World is **desktop based application** in Core Java for using applications as Calculator, Notepad, Word Count, Tic Tac Toe game, Online Test and Mini Web Browser.
- Conducted Unit Testing of Java Code for the desktop based Java Application World application.

Project 2#

Title	:	Online Quiz
Application Tool	:	Chrome
Web Technology	:	HTML5,CSS
Scripting Language	:	JQuery3.1.1, Javascript
Operating System	:	Windows 8

Description :

- It is a multiple choice question answer system.
- It will display questions one after the other and store the replies and display the result after a set of question ends.
- It will display the score in the end and display a message based on the score. It will also allow the user to take the quiz again.

Project 3#

Title	: ICICI Bank (Online Banking)
Application Tool	: Firefox
Testing Tool	: Selenium IDE 2.5, Selenium Webdriver 3.4, Eclipse Luna
Language	: Core Java
Operating System	: Windows 8

Title

- **Description :**
  Internet Banking System integrates the various levels of interactions between the bank and its customers and provides the customers of the bank with the necessary interface to avail banking services on net.
- Internet banking helps the customer of a bank to access his account from anywhere in the world. It helps the bank to handles the customer requests more efficiently and effectively and saves lot of time for the customer as he can get the information without going to the bank.

EDUCATIONAL DETAILS

➢ **ACADEMIC DETAILS**

- Bachelor of Engineering in Electronics from Pune University with 1st Class- 62.93%. (2014)

- HSC from CBSE Board with 1st Class- 60.3%. (2009)

- SSC from CBSE Board with 1st Class- 70.4%. (2007)

- Undergoing Training in Software Testing at CMS IT Services (**Certified Software Testing Professional**)

➢ **AWARDS AND ACHIEVEMENTS**

- 1st Prize in 'Robotics (NFS)' in the National Level Technical Contest.

- 1st Prize in 'Robotics (NFS) in Sharadchandra Pawar College of Engineering.

CERTIFICATIONS:

Cisco Certified Networking Associate (CSCO12865637) 2015

WORK EXPERIENCE

1. **COMPANY**: Orient Technologies Pvt. Ltd
   DOJ: 21 Jan 2016- 12 October 2016
   PROJECT: ISP Tikona Digital Networks
   JOB PROFILE: Network Support Engineer
   ROLES & RESPONSIBILITY:
   - L1 technical support PAN India.
   - Handle the tasks of troubleshooting basic network issues on-site and escalate problem to higher level of support, when required.
   - Remote Monitoring of Network & Client End Connectivity via various NMS Tools such as Flex master, Zone director, Telnet, etc.
   - Access of Core Routers via telnet installed in operational cities to check the ping response of serving Access Point and client end device in order to determine drop in connectivity as well as speed related issues.
   - Taking necessary action on complaints received from clients based on technical data available from various NMS tools and resolving the same with support of NNOC Team in case of network issue or field team in case of issue observed with client end connectivity by raising a ticket in Siebel application.
   - Remote configuration of routers (Cisco, D-Link, Netgear, Belkin, TP-Link, etc & various other wireless communication devices available with clients.

2. **COMPANY**: 3i Infotech Consultancy ltd
   DOJ: 10 March 2015 - July 2015
   PROJECT: ICICI Prudential
   JOB PROFILE: L1 Junior Associate Engineer and Asset Management
   ROLES & RESPONSIBILITY:
   - Application support, OS troubleshooting, hardware troubleshooting.
   - Preparing Management deliverable reports of Financial Clients of ICICI Prudential and formatting the excel reports for presentation to Project Manager.
   - Managing assets for PAN India 14 Cities (approx. 6000 assets).

INTERESTS

- Learning new Applications.
- sketching
- Adventurous activities.

DECELARATION

I hereby declare that the above written particulars are true to the best of my knowledge.

Place: Mumbai

Date: 16/7/2017
