- ❖ Automation Testing: Selenium IDE with Webdriver (Automation Tool)

❖ Test Management Tool: Tarantula & Defect Reporting Tool: Mantis

PROJECTS DETAILS

1.Kale Logistics Solutions Pvt Ltd (26th June 2016 till present)
Title: UPLIFT (Universal Platform for Logistics and Integrated Freight Transport)
Front End-ASP.NET 3.5 with C# & Backend: SQL Server 2008
Designation: Associate QA
Brief Description: UPLIFT is the platform to support collaboration between different participants of the supply chain. It acts as a flexible and reliable network that allows seamless information exchange between carriers and freight forwarders. UPLIFT will bring all major air carriers, freight forwarders, Ground-handling agents, Shipper and other industry associates from around the world together in an effort to improve efficiency, enhance customer service levels and reduce operational costs. All operations involved during the process of shipment are categorized as mandatory, optional and conditional.
.
Uplift India (CHA Module): This software is a Clearing Agent Project. It allows the user to enter Import - Export details of company, how to create Import & Export Document, How to Submit On line document & How to create manual and to create text file in Floppy. It keeps all features of Import - Export where you can see each detail such as checklist, Annexure, Bill of lading, SDF Form, GSP Front & Back Page, certificate of Origin etc. It's fully CHA Project.

Responsibilities:
❖ Performing manual testing with the focus on Functional Testing, Regression Testing, System Testing, Black Box Testing & GUI Testing on Web Applications.
❖ Participation in test case preparation & execution.
❖ Interacted with developers, users and various members of my team to discuss and to resolve defects and their priorities
❖ Detecting defects & classifying them based on the severity
❖ Defect Reporting on defect portal

2.moPharma Digital Solutions Pvt Ltd (3 Months Internship)
Title: Retailer Document Management Application.
Front End-PHP (Web App) Android (Mobile App) Backend: MYSQL
Designation: Software Tester
Brief Description: This app was made for Hindustan Unilever for Mobile & Web Application. This app is basically for Retailers of shop/Chemist. HUL had introduced NEFT scheme for their retailers for that purpose this app was introduced as a Document Submission app. The user(salesmen) can upload the user proof documents of the shop owners on mobile devices which used to get saved onto Web Server. This app was very beneficial for maintaining bulk data.

Responsibilities:
❖ Performing manual testing with the focus on Functional Testing, Regression Testing, System Testing, Black Box Testing & GUI Testing on Web and Mobile Applications.
❖ Participation in test cases execution.
❖ Interacted with developers, users and various members of my team to discuss and to

resolve defects and their priorities
- ❖ Detecting defects & classifying them based on the severity
- ❖ Providing Screenshots to identify and reproduce the bugs

3. ACADEMIC PROJECT

Title: Online HR Planning System

Front End- ASP.NET with C#

Back End- SQL

Brief Description: HRPS provides detail general information about the employee along with Personal, Educational, Professional and project details. It enhances the HR planning in adding, viewing and updating employee's details. Suggestions and grievances posted by the employees are upheld for taking care of necessary steps. HRPS provides comprehensive, integrated Human Resource management System which enables you to track, maintain and process all relevant human resource data.

Responsibilities: Testing functionality each module, designing the GUI

AREAS OF INTERESTS/EXTRA CURRICULUM ACTIVITIES

- ❖ Software testing
- ❖ Participated in College Fashion Shows and Dance competitions
- ❖ Participated in National level seminar based on Human Rights.
- ❖ Secured highest marks in Software Engineering subject during academics
